

T1000 SERIES

T1000 ELITE COMBAT WINCHES

The T1000 range of “Severe Duty” Warrior Winches were originally designed as highly advanced prototypes for military application, where the ability to perform in severe climates and the harshest environments imaginable are an essential prerequisite. After successful operations in the field & following many plaudits at last year’s Defence and Security Equipment International Expo, the decision was made to allow the T1000 range to become widely available for general use.

DURABLE

DEPENDABLE

VERSATILE

INCLUDED
